Race Start Procedure

All classes EXCEPT for T4 Bambino will be **Rolling Starts**. The T4 Bambino will be a **Standing Start**.

Rolling Starts

All karts must be in a two-row formation by the time the karts cross the Red Line as outlined in the track map below. Karts cannot overtake to retake grid positions once they have crossed the red line and must remain in the position they are in when they crossed the red line.

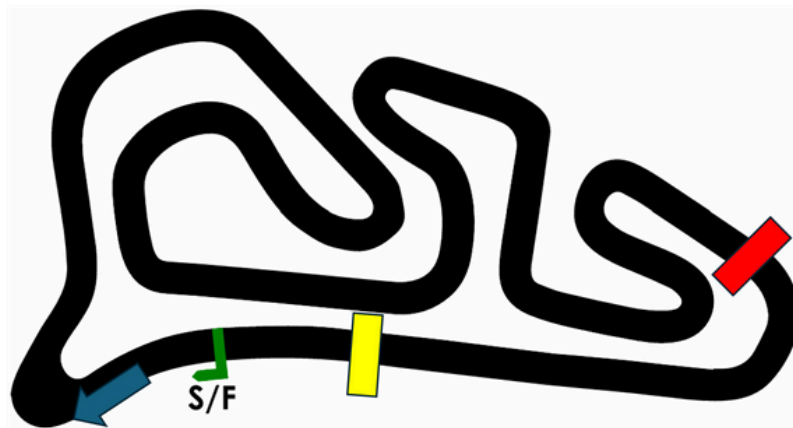

The pace between the red and yellow lines must be a constant or reducing. Failure to do so will result in a false start and an additional formation lap. The red line and yellow line will be marked by cones on the side of the track.

The lights will go out if the starter/COC are happy with the formation and pace. Once the lead competitors have crossed the yellow line the lights will be extinguished before they reach the start line, and the race will start.

Standing Starts

Competitors will leave the pre grid area and proceed around the track at a reduced speed to the start finish line. Competitors will be met by an Official in the centre of the track with a red flag raised above their head. Grid Marshal(s) may be present to assist competitors in taking their correct grid position. Once all competitors are in the correct position, the start marshal will raise a green flag from the left-hand side of the track. This will signify the race start.

After the Race

Competitors will take the chequered flag at the start finish line (marked S/F on the map above).

Competitors are required to do a full cool down lap at a much reduced speed and exit the track through the pitlane entrance marked by a blue arrow in the track map above.
